

<p>[氏名] Yuichi Torikai</p>	
<p>[現職] Professor, Faculty of Management, Fukushima Gakuin University</p>	
<p>[学生へのメッセージ]</p> <p>Accounting is the language of business. It involves the process of recording, classifying, and summarizing economic events through financial statements, which communicate a company's financial and economic information to external parties such as investors and creditors. Transparent accounting information is essential for companies to secure funding for their business activities from the capital market.</p> <p>In this course, after studying basic accounting theory, we will explore how to prepare financial statements, including bookkeeping procedures, and analyze the accounting information presented in these statements. We will also discuss solutions to complex accounting issues encountered in practice.</p> <p>Throughout the course, I expect you to enhance your understanding of accounting theory and practice, develop the ability to prepare accounting information, and provide insightful analyses of that information. Additionally, we will explore the potential opportunities for using AI in accounting.</p>	
<p>[専門分野] Auditing, International Financial Reporting Standards, Accounting Data Analytics</p>	
<p>[担当科目] Accounting</p>	
<p>[主な経歴]</p> <p>Yuichi Torikai is a professor of accounting at Fukushima College. Previously, he was a partner in the Accounting Consultation Service at PricewaterhouseCoopers Japan, specializing in accounting consultations for financial instruments. He also served as a practice fellow at the International Accounting Standards Board from 2002 to 2004 and as a senior research manager at the Corporate Finance Research Institute in Japan from 1999 to 2001.</p>	
<p>[主な研究業績/社会的活動]</p> <p>He served as a member of the Technical Committee on Emerging Practical Issues (2010–2015) and the Technical Committee on Segment Reporting (2007–2010) at the Accounting Standards Board of Japan. He also served as an examiner for the Certified Public Accountant Examination at the Certified Public Accountants and Auditing</p>	

Oversight Board from 2006 to 2008. He is currently engaged in research on data analytics in accounting and auditing, with a particular focus on the use of AI and other advanced technologies.
